

## TOP UK TRAINING PROVIDERS JOIN FORCES TO DELIVER ACCREDITED SPECTATOR SAFETY MANAGEMENT TRAINING

Watson Associates and Safe & Trained, part of the Tess Group, have joined forces to offer a comprehensive training and assessment regime for Spectator Safety Management qualifications.

Steve Laws from Safe & Trained comments: “We are pleased to be working with Sue to combine her vast knowledge and experience in Safety Management training with our established and recognised Level 4 Diploma programme “.

Watson Associates was the first company to offer Spectator Safety qualifications when they were introduced in 1993, and have for the last 24 years been delivering both training and assessment for NVQ Levels 2, 3 and 4.

Sue Watson added: “After City & Guilds decided not to deliver Sport and Recreation qualifications, we decided it was time to move on and develop new opportunities. Working with the Tess Group is a positive and sensible move forward for us as a business. Safe and Trained have a robust assessment process and a proven track record and we are delighted to be working with them.”

Safe & Trained offer Traffic Management training, Security training and Compliance training, all of which complement the Safety Advisory Group training and Spectator Safety Management training offered by Watson Associates.

For details of the course dates and qualifications offered by Watson Associates and Safe & Trained, please visit their websites:
